Spike's In First Place All Alone in County Softball League

By John D. Schofield

Spike's, the last undefeated team in the Crawford County Softball League, stands alone in first place in the league after last week's action. Smiggins, favorites in this year's race and last year's playoff champions, were the victims of a 2-1 upset at the hands of the Plaza Oldtimers, and fell to second place. The victory moved the Plaza to third place. Chevrolet split for the second week in a row to hang on to fourth place. Bear Archery is in fifth, AuSable in sixth, and Glen's in seventh. The standings are as follows:

Episcopalians To Initiate Church Building Plans

The regular 8:30 A. M. church service of St. Francis' Episcopal Church will be held out of doors next Sunday on the site of the church property just west of Grayling on M-72. This service of Holy Communion will be dedicated to the launching of building plans by the congregation and all friends and interested persons in the area are invited to participate.

Nels Olson is chairman of the affair, at which an outdoor altar will be set up and chairs and tables provided for the service and breakfast which will follow the church service. Mrs. George Griffith and Mrs. Don Wood are co-chairmen for the breakfast.

At this service the Reverend Colin Campbell will announce the official opening of the St. Francis' Building Program. It is expected that approval of the choice of architect and general plans will have come from the Diocese by this date.

In the event of rain the Service will be held at the Grayling Evangelical Lutheran Church on Ionia Street as usual, with the breakfast to follow immediately at the Masonic Temple. All Episcopalians and friends of the church are cordially invited to attend.

Hall and Gildner singled and Hall scored on Clyde Anthony's sacrifice fly. The Plaza had eight hits, with Smiggins getting only three off Gildner, the winning pitcher.

In another close game, Smiggins downed Chevrolet 3-0 on the one hit pitching of Jerry Korhonen. Smiggins tallied once in the first on two bunt singles and a sacrifice fly and twice in the fifth inning on three fielding errors and one hit. For Smiggins Oscar Horning had two hits and Doug Lott the only extra base hit, a ground-rule double. Dave Lowe got the Chevrolet hit.

Bear Archery was defeated as Chevy came up with five runs in the ninth inning to win 14-9. Chevrolet outbatted the Bears 17 to 6 but had to scrap to win after committing several costly errors.

AuSable Souvenir lost twice last week, 8-5 to the Plaza and 5-1 to Spikes. In the latter game AuSable put up a good struggle with the league leaders, before going down on three runs in the sixth inning. Phil Faustman and Joe Lowe got two hits each for Spikes. Louie got 11 and gave up only two hits. Bill Johnson and Jack Smith had the only hits for the Frederic team.

The double-header next Tuesday night should provide two exciting games, with AuSable and Bear Archery facing it out for fifth place in the first game and third place Plaza going it with fourth place Chevrolet in the last game.

First place Spikes will meet Bear Archery on Thursday and Glen's on Monday. Smiggins plays AuSable in the second game on Friday night.

BEAUTIFY GRAYLING PROJECT

We would like to thank each and every one of you for your help in spacing and planting your contributions to make this project a success. We do need rain and until we get some, we would appreciate it if the property owners would please water these plants. We also need your help in weeding and picking off dead blooms if there are any as yet.

The following have given donations this week to cover the cost of plants: Mrs. Esther Bailey, \$2; Mrs. Marian Hanson, \$2; Mrs. Stan Berry, \$2; Mr. and Mrs. Laurin Wink, \$2; Rev. R. C. Puffer, \$1; Clare Madsen Lumber Co., \$8; and Mr. and Mrs. Lindberg, \$1.

We have taken in enough now to cover our expense and we thank you again for your generosity. We used ten loads of top soil and \$178.00 worth of plants. Any donations left over will be used to start on the next year. We will not need new dirt next year. Thanks again.

Pre-Census Look At 10-Year Growth Locally

(Special to the Avalanche)

New York, June 17 — What population changes have taken place in Crawford County during the past ten years? What shifts have occurred in family size, median age, educational level, marital status and income?

In approximately nine months from now, the Government will take steps to find out, via the 1960 Decennial Census of Population. The answers to these and to other questions will be sought by census takers, who will make house-to-house visits.

Little is what they will learn, it is believed, will come as a complete surprise. Local, state and Federal agencies as well as unofficial bodies, have kept abreast of most changes through numerous surveys made in the ten-year period.

Crawford County, on the basis of such estimates and projections, is expected to show a 1960 population 6.7 percent higher than its 1950 figure of 4,157.

The average household locally, consisting of 4.00 people, will compare with 3.35 per household in the United States. More children per family is the answer.

As to the amount of schooling that heads of households have received, that will be found to be much higher than before. Many of these parents of the present teenage crop which is now weighing how much further it should go in school, were aided with their education by the GI bill. It helped boost their educational level some 1 1/2 years above the 1950 average.

The median age of the Crawford County population, which was 30.3 in 1950, will be somewhat greater, reflecting today's longer life span. There has been an overall shift upward.

Those in the over-65 age bracket will, next year, total 480, or 10.8 percent of the local population, compared with 8.7 percent in 1950. These elders have grown into an economic force to be reckoned with.

The data that is obtained through the census is much more than old statistics. It is the basic information needed and used for national economic planning, both by business and by Government.

It governs State-local tax allocations and the amount of Congressional representation and serves as a yardstick of markets and market potential.

With the Oscoda-AuSable Volunteer Fire Department stepping into the breach, the famed AuSable River canoe marathon will have its thirteenth annual running this fall from Grayling to Lake Huron.

When it became obvious that the Oscoda Chamber of Commerce and the Grayling Chamber of Commerce could not agree on the financial arrangements for the race, the smoke eaters from the downriver towns stepped forward to handle the race from that end instead of the Chamber.

All arrangements have been completed with the race to start from Grayling at 8:30 p. m. on Saturday night, September 5th. It will end at the US-27 bridge over the AuSable River in Oscoda at noon on Sunday, September 6th.

The only change requested by the new Oscoda-AuSable backers was for a change in the name of the race. This request was okayed by the race board. It will now be known as Michigan's World Canoe Marathon.

andwriting Is On The Wall . . .

Along about the turn of the century, industrial and financial interests in this country went too far. Greed and money and power led to excesses that outraged the public. The result was the anti-trust laws. Public opinion demanded that the abuses be cured, and the government ultimately obeyed.

Now we are seeing the same thing in the case of certain labor unions.

The classic current example is found in the projected scheme for forming a huge union made up of the workers in all the transportation industries. If that is ever done, a strike order could shut down the trains, the planes, the ships, the trucks and buses—and that would amount to shutting down the country.

However, the public temper is now becoming clearer. Portland Oregonian expresses a fast-spreading sentiment when it says: "This newspaper sees no valid reason why labor unions which now have or could arrange to have . . . the power to bring the national economy to its knees with a general strike, and to leave the nation defenseless against attack, should not be subject to the same anti-trust laws which govern their employers."

"Laws against monopoly in restraint of trade are based on a solid foundation of the welfare of all Americans. A transportation monopoly . . . is a weapon which could destroy the nation . . ." It is significant that so outstanding an authority on the labor problem Senator McClellan now urges the application of anti-monopoly laws to unions. The unions will fight hard against this. But the handwriting is on the wall, plain as all to see.

You play full, resonant chord accompaniment, too. You press a key—and out comes MUSIC! Real music, full timbre, rich, mellow, and wide of range . . . vibrant with the authentic "breathing" of organ tones and overtones, because Magnus uses the same principle of passing air over reeds as you find in the mightiest church organs.

Truly, Magnus is unmatched at its price for workmanship, cabinetry, and tonal quality.

GASOLINE CORNER AND PLEASURE LANE

"How About You?" . . .

The executive vice president of the Baton Rouge, La., Chamber of Commerce, stated some plain facts about the fallacies and perils of federal aid to education when he said: "I predict that if the people . . . of the nation, accept any more so-called federal aid for operation of our public school program we will regret it to our dying day."

"In the first place the federal government can't give us one thin dime that they didn't extract from us in the first place. So it certainly is no gift."

"Secondly, the federal government doesn't spend money, domestically anyway, that it doesn't control. For example, at present we receive federal aid in the field of vocational agriculture and home economics. And brother, the federal government calls the tune, whether it concerns the course of study demanded, the qualification of teachers, the hours worked, the scope of teacher duties, or whatever . . ."

"Some of the proponents of federally-subsidized public education deny any intention of application of controls. Hogwash! Those gentlemen of the Supreme Court have already ruled that the federal government may control that which it subsidizes."

"Some may want to submit to the socialization of America without a battle. Danged if I am—How about you?"

The first game ended with a score of 9 to 6 in favor of the Bay Cityans, and the second game in favor of Grayling, score 8 to 7. Award-winning Style

It's all new and Thunderbird-elegant. No wonder the Comité Français de l'Élégance gave Ford their highest award.

"Your dollar never
had it so good!"

Eye-catching Lowness

It's over an inch lower! Yet it's the easiest car of the big-selling three to enter. There's room for six big 6-footers. Seats are high and more comfortable.

New Economy

Not only are these the lowest priced of the big sellers . . . they keep on saving. Their standard V-8 or Six engines thrive on lower-cost, regular gas—saving up to \$1.00 a tankful. You only need to change oil each 4000 miles because every Ford engine comes with a Full-Flow oil filter. Mufflers are aluminumized to last twice as long as the ordinary kind used on other cars.

Ford's Diamond Lustre Finishes never need waxing. Ford's new Tyrex tires are built to withstand high-speed driving longer.

More Skeddaddle

Ford has designed its V-8 and Six engines to give top punch at speeds where it really pays off . . . in the 30- to 70-mph range where most driving's done! And if you want high horsepower, Ford offers as options engines with horsepower up to 300!

"Did you know Ford Fairlane 500's are priced as much as \$102.75 lower than Ford's nearest competitor,* equipped the way most people want cars—with heater, radio, and automatic transmission? Add air conditioning and savings mount . . . up to \$219.85."

World Shippers
Asked To Look
At State Ferry

Repeat War
History

SHIPPERS AROUND THE
WORLD will be asked to take a
look at the price of Michigan's
ferry fleet, the Vacationland, now
up for sale.

The vessel is the last of the
five-boat fleet which linked the
upper and lower peninsulas of
Michigan before the \$100,000,000
Mackinac Bridge was opened Nov.
1, 1957. The others have been
sold at a fraction of their original
cost.

The Vacationland is moored
alone and lonely at the St. Ignace
dock, barred by the law which
authorized construction of the
bridge from ever making the trip
again.

To protect buyers of the bridge
bonds, the law states that there
can be no boat in competition
with the bridge, which is being
paid for by tolls.

The Vacationland now is occu-
pied by only one watchman and a
few seagulls, which used to follow
the fleet between Mackinac Island
and St. Ignace.

The trip, which formerly took
40 minutes in good weather, is
now a 10-minute drive through
the sky over the bridge.

The Vacationland, the largest
of the fleet, can carry 875 passen-
gers and 140 vehicles.

Philip H. Anderson, deputy di-
rector of the purchasing division
of the state department of admin-
istration, sees new hope for sell-
ing the Vacationland in the open-
ing of the St. Lawrence Seaway.

"Now that we have the seaway
and can get her out of the Great
Lakes Basin, we shouldn't have
much trouble selling her," said
Anderson.

HISTORY WHICH HELPED
end the war between the states
a century ago will be repeated at
Bull Run, Va., in 1961.

Michigan will send National
Guard troops to Virginia, clad in
the traditional blue, to reenact
the Battle of Bull Run as part of
a historical celebration.

The request came to Michigan
from Virginia Gov. J. Lindsay Al-
mond to take part in the celebra-
tion.

To ease the fears of families and
relatives of the men going to Vir-
ginia in two years, there are in-
surances that none of the men
will be loaded, with live ammuni-
tion at least.

POLITICAL OBSERVERS new
Gov. Williams confronted with a
dilemma of his own making.

His party friends and heirs ap-
parently believe he will not be a
candidate for a seventh term,
but will make his stand in the
national Democratic picture next
year.

They have had encouragement
in this belief from other states.
His speeches on national and inter-
national problems, and other fac-
tors.

Most of his party's strategists
feel that the financial plight of
Michigan has wrecked his chances
for a national nomination next
year.

A conference of party leaders
in Denver, Colo., indicated that
he must succeed in overpowering
the Republican-controlled legisla-
ture this year or fail for the
present in the national picture.

Indications of dissent in his own
party in the legislature point only
to trouble for the record setting
Democratic governor.

Most of Williams' program was
scrapped by the legislature when
the deadline for action arrived
June 5.

It also marked the tenth year
in which the legislature had re-
fused to enact his "Seal of Qual-
ity" program for farm products,
a program of promotion and stan-
dardization of products.

The nation knows of Idaho po-
tatoes and Maine lobsters and Cal-
ifornia citrus fruits of Florida and
California. The Williams program
was an advertising device to pro-
duce a similar effect for Michigan
agricultural products.

The programs rejected by the
legislature this year also include
a state building authority, an
atomic energy commission, an old
age commission, an industrial park
authority, and an employment
safety standards bill.
